# Full Access to ServiceNow
without the Cost or Complexity Hurdles

Imagine having the power of ServiceNow at your fingertips - transforming your IT operations, elevating your service delivery, and driving real business growth - without the daunting costs or the need for in-house expertise.

Coreio's ServiceNow-as-a-Service (SNaaS) offering makes enterprise-level IT Service Management accessible and affordable to small to medium-sized businesses. We handle the complexity, so you can focus on propelling your business forward.

Coreio's ServiceNow-as-a-Service (SNaaS) is a preconfigured, secure, multi-tenant ServiceNow environment, specifically designed for organizations that want the power of ServiceNow without the cost of entry. Our tiered licensing model enables you to take advantage of the features and functions your need and scale as your company grows.

3X Faster than standard deployment

20% Lower Total Cost of Ownership

Comprehensive Management and Support by **Certified Experts**

Access to ServiceNow **new capabilities** at no extra cost

> *What we appreciate about working with Coreio is their proactive management of our ServiceNow platform, ensuring it evolves with our changing business needs. Their continuous improvements keep everything running smoothly and aligned with our goals. It's reassuring to have a partner who collaborates closely with us and is in sync with our direction.*
